

LEWIS MUCHERU

**SOFTWARE DEVELOPER | FULL-STACK
DEVELOPER | AI & MACHINE LEARNING
DEVELOPER**

ABOUT ME

Software Developer with a Bachelor of Science in Software Development from KCA University and practical experience building full-stack, artificial intelligence, machine learning, data science, and mobile applications. Skilled in developing scalable solutions using Python, JavaScript, TypeScript, React, Next.js, Node.js, FastAPI, MongoDB, Firebase, and Android technologies.

EXPERIENCE

Software Development Intern YourApps Limited | May 2025 - July 2025

- Assisted in developing, testing, debugging, and improving software applications.
- Applied programming, database, and software engineering concepts in practical projects.
- Participated in feature development, troubleshooting, and application maintenance.
- Collaborated with developers and gained experience with professional development workflows.

FEATURED PROJECTS

- SentinelAI – AI Environmental Risk Intelligence Platform: Technologies: Python, FastAPI, React, Machine Learning, GIS
- StudyVoice AI – Generative AI Learning Platform: Technologies: Next.js, TypeScript, Groq AI, Vercel AI SDK
- Kenya Shop Ecommerce Platform: Technologies: TypeScript, Node.js, Express.js, MongoDB
- Universal ACE – Community Savings Management System: Technologies: Next.js, React, MongoDB, Tailwind CSS
- FinanceFlow – Personal Finance Tracker: Technologies: Node.js, Express.js, MongoDB, Handlebars
- WeatherApp – Android Weather Application: Technologies: Java, Kotlin, Firebase, Retrofit, MVVM

EDUCATION

Bachelor of Science in Software Development

2021 – 2025 | KCA University

High School KCSE

GRADE B plain | Nyandarua High School

SKILLS

- Programming: Python, JavaScript, TypeScript, Java, Kotlin, SQL
- Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
- Backend: Node.js, Express.js, FastAPI, REST APIs
- Databases: MongoDB, Firebase Firestore, PostgreSQL
- AI & Data Science: Machine Learning, Generative AI, Data Analysis, Pandas, NumPy, Scikit-learn, Predictive Modelling
- Mobile: Android SDK, Retrofit, Firebase Authentication, MVVM
- Tools: Git, GitHub, VS Code, Android Studio, Vercel, Render
